Subject: Urgent: Upgrade AEBAS BAS Software from Version V10.061 to V10.063

Dear Training Partner's

We wish to inform you that the AEBAS BAS Software version V10.061 has been deactivated by NIC. To ensure uninterrupted functionality, it is imperative that you upgrade to the latest BAS Windows Client (v10.063) at the earliest.

The updated software version (v10.063) is available for download on the official website: https://central.mahaswayam.ac.in/. Please follow these steps to download and install:

1. Visit the website and navigate to the "Console" section on the left-hand side.

2. Click on "Software Download for Android/Desktop."

3. Select "Download for WINDOWS (For Windows 10 and above)" and download the BAS Windows Client (v10.063).

We kindly request you to complete the upgrade by the end of the day (EoD) today, [April 01, 2025], to avoid any disruptions in service.
